DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, "and/or plastic rib supports attached thereto" (line 2); "and/or wherein at least one rib support is connected to said metal surface with a lip" (lines 5 and 6) is not clear.

See same deficiency in claim 5.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6, as understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Girardot et al. 5,658,041.

Regarding claim 1, Girardot et al. '041 discloses an integral structure comprising a metal surface (1 and 17) and one or more plastic support members (2); wherein said metal surface comprises at least one edge portion formed at least in part with a bend sufficient to secure at least one support member therealong in Figures 1 and 7.

Art Unit: 3612

Regarding claim 2, Girardot et al. '041 discloses the integral structure further comprising ribs (notch in 8 and the area in front of 3) in Figure 1.

Regarding claim 3, Girardot et al. '041 discloses the integral structure wherein said metal surface (17) has an aperture formed therein in Figure 1.

Regarding claim 4, Girardot et al. '041 discloses the integral structure wherein said plastic support members (2) and ribs are made of polyamide (column 4, lines 28-35).

Regarding claim 5, Girardot et al. '041 discloses an article comprising a metal surface (1) and one or more plastic support members (2); wherein said metal surface comprises at least one edge portion formed at least in part with a bend sufficient to secure at least one support member therealong in Figures 1 and 7.

Regarding claim 6, Girardot et al. '041 discloses the article in the form of a front end module.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3612

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
